A NEW BUILDING

The Messenger of Allah(s) said, "When a man dies, his deeds come to an end except for three things:

- Sadaqah Jariyah (ceaseless charity);
- A knowledge which is beneficial,
- Or a virtuous descendent who prays for him (for the deceased)."

Sahih Muslim (8)

TREAT OTHERS THE WAY YOU WANT TO BE TREATED

by Jumana Aburomeh

I will treat others the way I want to be treated. I will not be mean to other people because I want people to be kind to me. I can be kind to people and if people are not kind to me, I should still be nice to that person. I should be respectful to everyone. I can help my friends and my sister and also my mom and dad. So I will treat others the way I would want to be treated. That is all about treating others the way I want to be treated.

by Serra

I want to help somebody so next time they can help me. Don't hurt someone's feelings. Share your toys so the other person shares their toys. Be kind to others next time they will be kind to you. My mommy is telling if you don't want to hear bad words, don't say it to other, because they don't want it, too. Think before you talk and act. If you feel good, say it or do it.

by Renad

Treat others the way you want to be treated. One day in the morning, I made my bed, then I glanced over and saw my sister's bed not made yet. An idea popped into my head. I can make her bed, what a kind thing to do. Lastly, I made her bed. She was so proud and happy. The end.

by Zeinab

Being kind is the best choice. I always treat other people kindly because I like to be treated that way. I place nice with my friends and I share my toys with my sisters and cousins. I do not like bullies. They scream and hit other kids and they always want to fight. That is not nice. I am sure they wouldn't like to be bullied. So they should not bully anymore and treat others the way they like to be treated.

by Adam S

Being nice. Following the rules. No bullying. Saying good words. I have to be nice to everybody. That way they will be nice back. I have to use good words that way everybody will like to be my friend. I have to be kind so my friend will be kind and play with me everyday.

WHAT DID PROPHET NUH ASK ALLAH TO DO TO HIS PEOPLE

by Adam Kaissi

(71:26) And Nuh said, "Oh my lord, do not leave on the Earth a single household in which disbelievers live. (71:27) If you leave on any of them, they will just misguide more of your servants and they will only have children, who will grow up disobedient and ungrateful to you. (71:28) Oh my lord forgive me and my parents and whoever entered my house with faith. And all the believing men and all the believing women. And do not give anything to the oppressive people except destruction." This is what prophet Nuh asked from Allah so that the world will not lead others to disobey Allah. We are all Allah's servants and were given the lives we live for a reason. For us to go further than disobeying our lord, and misguide others to do the same while leading them to hellfire is disrespectful and will come with a cost. As prophet Nuh said, giving up on one household will create several more disobedient and ungrateful slaves for Allah. We should never forget this so in the future if we see a misplaced slave of Allah we do not have the mindset that it's just one misguided person because that one can become many many more.

by Hannah Qureshi

This surah was revealed in Makkah. It has 28 ayaat and mainly talks about the story of Prophet Nuh. Allah revealed this surah to Prophet Muhammad to encourage him to be patient. In this surah, Allah tells us about the patience of Nuh, who called his people for over 900 years. Many of them obeyed Allah but some were not so good and did just what they wanted to do all the time. This made Allah very unhappy. Allah chose Nuh, a good man, to tell the people that what they were doing was wrong. But they wouldn't listen to him and carried on doing bad things. Nuh asked Allah that all the naughty people should be punished. Only a few of them followed Nuh and became believers. Then Allah punished the people who disbelieved by killing them by a flood. One day, all of a sudden, the sky went very dark and it started to rain. Soon there was water everywhere. They were frightened because they had no shelter from the water. Only the good people in the ark were safe and everyone else died from the flood.

MY ROLE MODEL

by Imaan Mowjood

My role model is Prophet Mohammed (PBUH). He is my role model because he was a great Muslim. Even though not everyone believed in Islam, he never gave up in trying to make them. He was a good, honest, kind and friendly to everyone. But especially to children. He had very nice manners since he was a child. And you can depend on him always. That is why Prophet Mohammed (PBUH) is my role model.

HOW MONEY AND POWER CAN BE DANGEROUS

by Razan Yazouri

I am going to explain to you why money and power can be dangerous. Money and power can be dangerous because it could drive many people and family's apart. The dangers of riches can be very unpleasant and could drift many Muslims and in general, humans, away from Allah. Riches can be so dangerous that it will reidentify you, and will also change the way you look at others. Gold and money can be very powerful to the mind because it can prove to you that you must be very powerful. When really there isn't any money in the world to satisfy you. Riches like this can bring a danger to mankind because it makes many people greedy and want more money for themselves instead of giving or sharing.

Many people go crazy and believe that money, gold, jewels, and etc. buy them happiness, many human beings are so obsessed with being wealthy that they might forget who they are. Power is a very dangerous thing to mankind. Some people are addicted to power and believe that it is the only thing people will except. Power is a danger to humanity because it can turn people against their family's and will make people worship them. Many human beings think that power is the path of a good life, when actually it is really dangerous and deadly. Someone can have all the power in the world and will still go and look for more.

This is why if you have both money and power it could be dangerous, because it could convince you that you are the most prize possession and it will make you look down to people. Those people will think that you are a god and that they must serve you. There are many reasons why you should have neither power, nor money. One reason is because it will take you away from the god, it will change the way you look at others, and it will change the way you think about yourself.
